<b>CHAPTER THREE: SIMPLE TENSES OF VERBS IN KOMO AND ENGLISH LANGUAGES</b>	<b>38</b>
<b>3.0 Introduction</b>	<b>38</b>
<b>3.1. Simple tenses of verbs in English</b>	<b>38</b>
<b>3.1.1 Simple Present Tense</b>	<b>38</b>
<b>3.1.2 Use of Simple Present Tense in English</b>	<b>39</b>
1. express repeated as habitual actions ( <i>every day, always, often, sometimes, never</i> )	39
2. things in general/ universal truth	39
3. Fixed arrangements, scheduled events (e.g. timetable)	39
4. sequence of actions in the present ( <i>first – then, after that</i> )	39
5. instructions	39
6. with special verbs – which are normally not used with the <i>Present Progressive</i> (These verbs express states, possessions, feelings etc.) <i>be, believe, belong, hate, hear, like, love, mean, prefer, remain, realize, see, seem, smell, think, understand, want, wish</i>	40
<b>3.1.3 Simple Past Tense</b>	<b>40</b>
FORM: will	41
FORM Be Going To	41
USE 1 "Will" to Express a Voluntary Action	41
USE 2 "Will" to Express a Promise	42
USE 3 "Be going to" to Express a Plan	42
USE 4 "Will" or "Be Going to" to Express a Prediction	43
<b>3.2. Simple Tense of verbs in Komo</b>	<b>43</b>
<b>3.2.2. Use of Simple Present Tense in Komo</b>	<b>44</b>
1. repeated actions ( <i>every day, always, often, sometimes, never</i> )	44
5. sequence of actions in the present ( <i>first – then, after that</i> )	44
6. instructions	45
<b>4.2.3 Simple Past Tense</b>	<b>45</b>
<b>3.2.4. Simple Future Tense</b>	<b>46</b>
<b>3.3. Contrastive analysis of simple tenses of verbs in English and in Komo language</b>	<b>47</b>
<b>3.3.1. Similarities</b>	<b>47</b>
<b>3.3.2. Differences</b>	<b>48</b>

3.3.3 Conclusion.....	49
-----------------------	----

**CHAPTER FOUR: ASPECTS OF VERBS IN KOMO AND ENGLISH LANGUAGES ..... 50**

4.1. Introduction.....	50
------------------------	----

4.2. Aspects of verbs in English.....	50

## **0. GENERAL INTRODUCTION**

### **0.1. Choice and interest of the topic**

This work entitled " A Contrastive Analysis of Simple Tenses and Aspects of verbs between English and Komo languages has not been chosen at random. In fact, being myself a Komo subject completing my graduate studies at the English –African Culture department and also working for the Bible translation in Komo language; I felt more interested to explore some linguistics aspect of my language and contrast them with those of English.

### **0.2 Limitation of the work**

This memoir limits its scope to contrasting Simple Tenses and Aspects of verbs in English and Komo languages.

### **03. Aims and objectives of the work**

The aim of this work is to investigate, collect data in both Komo and English languages, describe the way Simple tenses, and verbs behave in each of the above mentioned languages, and then contrast those aspects in order to point out or identify areas of similarities and dissimilarities existing between Komo and English languages.

The objective of this research is to help Komo speakers learning English understand the differences and similarities existing between Simple Tenses and Aspects of verbs in Komo and those of English.

### **0.4. Statement**

Here below are some questions which initiated my concern to carry out research on " A contrastive Analysis of Simple Tenses and Aspects of verbs between Komo and English languages"

- Are English and Komo two different languages?
- Do Simple Tenses and Aspects exist in English and Komo verbs?
- Can Simple Tenses and Aspects of verbs in English and Komo be similar or different?
- Does the contrastive study as dealt through this memoir help readers and learners understand how verbs operate?

## **0.5. Hypotheses of the work**

Hypotheses are assumptions or pre-answers thought out from some questions listed in the statement. Accordingly, here below are some related hypotheses:

- Komo and English might be different languages since each one has its particular origin.
- Simple Tenses and Aspects might exist in English and Komo verbs because languages have universal grammar.
- Simple Tenses and Aspects of verbs in English and Komo could have similarities in their use.
- This contrastive analysis of Simple Tenses and Aspect of verbs between English and Komo languages would help Komo Learners of English avoid or overcome the negative transfer at the level of sentence structure in both English language and vice-versa.

## **0.6 Review of literature**

Previous studies of Komo with linguistic content are limited. So, with all scientific honesty, I acknowledge that I am not the first to make investigations in Komo language in general.

In fact, J.P Thomas developed "*A Morphophonology of Komo: Non tonol phenomena*" where he studied how the phonology and morphology of Komo interact.

He developed again the topic "*Tone in Komo*" where he studied how the tonol system of Komo operates.

He has also developed the topic "*Reflexes of Bantu noun-classes Prefixes in Komo*" where he classified nominal prefixes.

Also, Buimba Mekembe developed the topic "*Usage des Pronoms dans le récit narrative Komo et leur implications dans la traduction Biblique*" where he discussed the impact of Komo pronouns in translation domain.

Then in my turn, I am concerned with a topic entitled "*Simple Tenses and Aspects of Verbs between English and Komo languages: A contrastive analysis.*" Where I contrast Simple Tenses and Aspects of

Verbs in both Komo and English languages by pointing out similarities and differences.

### **0.7. Methods used**

This work has resulted from combination of five methods which are: The linguistic inquiry, the translation method, the analytical method, the descriptive method and the contrastive one. The linguistic inquiry contributed in collecting data used in this thesis. The translation method helped me to decode the meaning of Komo version and then to reformulate it in English. The analytical method guided me to analyze and interpret the selected data. The descriptive method helped me to classify and describe Simple Tenses and Aspects of verbs in Komo and English languages. Lastly, the contrastive method helped me to contrast tenses and aspects mentioned above in order to single out similarities and dissimilarities in both Komo and English languages. The interview technique was also used.

### **0.8. Data collection and difficulties encountered**

For data collection, books related to the topic have been read. Internet was exploited whenever, which allowed me to be in contact with foreign Universities (Stockholm and Dar es salaam) from which I received data. Then recorded sounds of Komo native speakers were sent throughout it. Some investigations have been reached thanks to some native speakers who contributed to enrich the data collection.

Hence, difficulties have been encountered because of lacking a sponsor who could support me to join home land where numerous Komo speakers are.

### **0.9. Expected result**

Being a Komo native speaker and a holy Bible translator in Komo language, I expect that this work will successfully contribute to improve Komo-English linguistic matter from a generation to another as a tool.

## **10. Division of the work**

A part from the preliminary part and the last one (general conclusion, appendix and bibliography), the thesis is organized in four main chapters.

- ❖ In the first chapter, I present background information on Komo and English languages, i.e. historical background of English and Komo languages, geographical locations, linguistic locations and different dialects in both Komo and English languages.
- ❖ In the second chapter, I present structures of verbs in Komo and English languages there I analysed Preffixation, stem, suffixation and derivation in both Komo and English languages.
- ❖ In the third chapter, I present Simple Tenses of Verbs in Komo and English languages i.e. S.P.T, S.Past T, S.F.T in Komo and English languages, their use and formations by constrasting them.
- ❖ In the last chapter, I present aspects of verbs in Komo and English languages i.e S.A, Perfect. A, P.Perfect.S.A, Past Perfect.S.A, F.Perfect.S.A., Pr.A, **P.S.Pr.A, Past.S.Pr.A., F.S.Pr.A, Perfect.S.Pr.A, P.Perfect.S.Pr.A, Past Perfect.S.Pr.A, F.Perfect.S.Pr.A** their use and formations by constrasting them.

# **CHAPTER ONE: GENERALITIES ON KOMO AND ENGLISH LANGUAGES**

## **1.0. Introduction**

This chapter presents some background information on both English and Komo, the two languages of my concern in this thesis. It is mainly about their history and development through the world, their geographical locations, and their linguistic varieties or dialects. Additionally, some other aspects such as their uses or importance as means of communication and sound organization are also displayed within the same chapter.

## **1.1. History of English language**

<http://www.englishclub.com/english-language-history.htm> explains that, the history of English language really, started with the arrival of three Germanic tribes who invaded Britain during the 5<sup>th</sup> century AD. These tribes are: Angles, Saxons and Jutes. They had crossed the North Sea from what is known today as Denmark and northern Germany. At that time, the inhabitants of Britain spoke a Celtic language. But most of the Celtic speakers were pushed towards West and North by the invaders, mainly into what is now: Wales, Scotland and Ireland.

The Germanic invaders entered Britain on East and South coasts. They spoke a similar language which in Britain developed into what we call old English (450-1100 AD). Here below is a map of Germanic invasions showing clearly the direction of the above mentioned invading movement.

### **1.1.1.A Brief chronology of English**

The chart below displays a brief chronology of English starting from 55 BC to 1928 with some main events of each period and the type of English prevailed.

Period	Main event	Prevailed language
55 BC	Roman invasion of Britain by Julius Caesar	Local inhabitants speak Celtic
AD 43	Roman invasion and occupation. Beginning of Roman rule of Britain	
436	Roman withdrawal from Britain complete.	
449	Settlement of Britain by Germanic invaders begins	Old English
450-480	Earliest known Old English inscriptions.	
1066	William the Conqueror, Duke of Normandy invades and conquers England	Middle English (1100-1500)
C 1150	Earliest surviving manuscript in middle English	
1348	English replaces Latin as the language of instruction in most schools	
1362	English replaces French as the language of law. English is used in parliament for the first time.	
c 1388	Chaucer starts writing The Canterbury Tales	
c 1400	The Great Vowel Shift begins	Early Modern
1476	William Caxton establishes the first English printing press	
1564	Shakespeare is born.	

1604	Table Alphabetical, the first English dictionary, is published.	English (1500-1800)
1607	The first permanent English settlement in the New World (Jamestown) is established.	
1616	Shakespeare is dies.	
1623	Shakespeare's First Folio is published in London.	
1755	Samuel Johnson publishes his English dictionary.	
1776	Thomas Jefferson writes the American Declaration of Independence	
1782	Britain abandons its colonies in what is later to become USA.	
1828	Webster publishes his American English dictionary	Late Modern English (1800-Present)
1922	The British Broadcasting Corporation is founded	
1928	The Oxford English Dictionary is published	

### **1.1.2 Geographical location**

Wikipedia, the free encyclopedia, states that, in 2012, there are 88 states where English is spoken throughout the world, among which 60 are sovereign states, and 28 are non-sovereign ones. Here below is a chart displaying the list of States where English is spoken throughout the world

N <sup>o</sup>	Country	Status of English	Region
----------------	---------	-------------------	--------

01	Antigua and Barbuda	Dejure/ Official language	Caribbean
02	Bahamas		Caribbean
03	Barbados		Caribbean
04	Belize		Central America/ Africa
05	Botswana		Africa
06	Cameroon		Africa
07	Canada		North America
08	Dominica		Caribbean
09	Eritrea		Africa
10	Fiji		Oceania
11	Gambia		Africa
12	Ghana		Africa
13	Grenada		Caribbean
14	Guyana		South America
15	India		Asia
16	Ireland		Europe
17	Jamaica		Caribbean
18	Kenya		Africa
19	Kiribati		Oceania
20	Lesotho		Africa
21	Liberia		Africa
22	Malawi		Africa
23	Malta		Europe
24	Marshall Islands		Oceania
25	Mauritius		Africa

27	Namibia		Africa
28	Nauru		Oceania
29	New Zealand		Oceania
30	Nigeria		Africa
31	Pakistan		Asia
32	Palau		Oceania
33	Papua New Guinea		Oceania
34	Philippines		Asia
35	Rwanda		Africa
36	Saint Kitts and Nevis		Caribbean
37	Saint Lucia		Caribbean
38	Saint Vincent and the Grenadines		Caribbean
39	Samoa		Oceania
40	Seychelles		Africa
41	Sierra Leone		Africa
42	Singapore		Asia
43	Somaliland		Africa
44	Solomon Islands		Oceania

45	South Africa		Africa
46	South Sudan		Africa
47	Sudan		Africa
48	Swaziland		Africa
49	Tanzania		Africa
50	Tonga		Oceania
51	Trinidad and Tobago		Caribbean
52	Tuvalu		Oceania
53	Uganda		Africa
54	Vanuatu		Oceania
55	Zambia		Africa
56	Zimbabwe		Africa
57	Australia	De facto	Oceania
58	United Kingdom	language	Europe
59	United States		North America
60	American Samoa		Oceania
61	Anguilla		Caribbean
62	Bermuda		North America
63	British Virgin Islands		Caribbean
64	Cayman Islands		Caribbean
65	Christmas Island		Australia
66	Coco (keeling) Islands		Australia
67	Cook Islands		Oceania
68	Falkland Islands		South Atlantic
69	Gibraltar		Europe
70	Guam		Oceania
71	Guernsey		Europe
72	Hong Kong		Asia
73	Isle of Man		Europe
74	Jersey		Europe
75	Montserrat		Caribbean
76	Niue		Oceania
77	Norfolk Island		Australia
78	Northern Mariana Islands		Oceania
79	Pitcairn Islands		Oceania
80	Puerto Rico		Caribbean
81	Saint Helena		South Atlantic
82	Ascension		South Atlantic
83	Saint Maarten		Caribbean
84	San Andrés y Providencia, Colombia		Caribbean
85	Tokelau		Oceania
86	Turks and Caicos Islands		Caribbean
87	U.S. Virgin Islands		Caribbean
88	Tristan da Cunha		South Atlantic

--	--	--	--

### **1.1.3 The global status of English**

A language is a systematic means of communication by the use of sounds or conventional symbols.

Dr. G Manivannan (2006) stipulates that, English language comes to our aid in commercial transaction throughout the globe. It is one tool to establish our view point. It is spoken by more than 300 million native speakers, and between 400 and 800 million foreign users. It is the official language of air transport and shipping; the leading language of science, technology, computers and business; and a major medium of education, publishing, and international negotiation.

Robert Mc Crum et al (1986:20) state that, the emergence of English as a global phenomenon as either a first, second or foreign language has recently inspired the idea that we should not talk of English, but of many Englishes, especially in Third World countries where the use of English is no longer part of the colonial legacy, but the result of decisions made since independence. But what kind of English is it?

Throughout the history of English there has been a contest between the forces of standardization and the forces of localization, and both the written and the spoken levels. The appearance of the first substantial English Dictionaries in the eighteenth century was a move toward written standardization.

### **1.1.4 Linguistic location of English**

[http://en.wikipedia.org/wiki/file:Germanic\\_Languages.PNG](http://en.wikipedia.org/wiki/file:Germanic_Languages.PNG) reveals that, English is a West Germanic language that originated from the Anglo- Frisian dialects, brought to Britain by Germanic invaders. Whereas, Germanic is a branch of the Indo-European language family. Here below is schemed the Germanic linguistic family.

### 1.1.5. Sound

### English

### Organization

This sub-point displays and illustrates English Alphabets, vowel and consonant sounds respectively.

P.H MATTHEWS (2007:16) states that, alphabet is a writing system, strictly one in which consonants and vowels are represented equally by separate letters.

According to Corneille (2013:15), English alphabet has twenty-six letters, which are divided into vowels and consonants. Phonemically, there are thirty-six individual and distinctive segmental phonemes.

Thus, English Alphabets consist of the following:

A: as in able	F: as in effort	K: as in King
P: as in Peter		
B: as in bean	G: as in geography	L: as in light
Q: as in queen		
C: as in cease	H: as in home	M: as in mouth
R: as in right		
D: as in Dear	I: as in item	N: as in new
S: as in son		
E: as in Eagle	J: as in job	O: as in Open
T: as in teacher		
U: as in Unit	V: as in visual	W: as in way
X: as in x-ray		

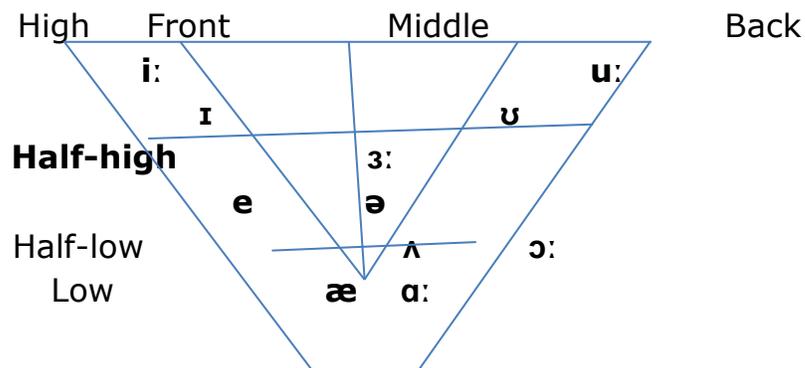

Y: as in young                      Z: as in Zip.

English attests twelve vowel sounds or segmental phonemes.

All these vowels are presented and illustrated in some English words below:

No	Vowel Sound	English Word
01	[ i ]	kit, minute, hymn
02	[ e ]	dress, bed, head, many
03	[ æ ]	trap, bad
04	[ ɒ ]	lot, wash
05	[ ʌ ]	love, blood, mud
06	[ ʊ ]	foot, good, put
07	[ i: ]	sea, machine
08	[ u: ]	two, blue, group
09	[ ɑ: ]	start, father
10	[ ɔ: ]	taught, law, north, war
11	[ ɜ: ]	nurse, stir, learn, refer
12	[ ə ]	about, common, standard

Here are vowels triangle below in exemplifying the position of the tongue and the degree of the opening of the mouth or aperture in the chart.

### 1.1.5.1 English consonants

Here are English consonants:

N <sup>o</sup>	English Consonant Sound	English word containing the consonant sound
1	<b>P</b>	pen, copy, happen
2	<b>b</b>	back, baby, job
3	<b>t</b>	tea, button
4	<b>d</b>	day, lady
5	<b>k</b>	key, clock, school
6	<b>g</b>	get, ghost
7	<b>tʃ</b>	church, match, nature
8	<b>dʒ</b>	judge, age, soldier
9	<b>f</b>	fat, coffee, photo
10	<b>v</b>	view, heavy, move
11	<b>θ</b>	thing, author, path
12	<b>ð</b>	this, other, smooth
13	<b>s</b>	soon, sister
14	<b>z</b>	zero, music
15	<b>ʃ</b>	ship, sure, national
16	<b>ʒ</b>	pleasure, vision
17	<b>h</b>	hot, whole, ahead
18	<b>m</b>	more, hammer
19	<b>n</b>	nice, know, sun
20	<b>ŋ</b>	ring, Anger
21	<b>l</b>	light, valley
22	<b>r</b>	right, wrong, sorry
23	<b>j</b>	yet, use, beauty, few
24	<b>w</b>	wet, one, when, queen

Two criteria are observed when English consonant sounds are realized or articulate: The place and manner of articulation.

Here below, is a chart displaying all the English Consonant Sounds according to the above mentioned criteria.

		Place of articulation							
Manner of production	Plosive	Bilabial	Labiodental	Dental	Alveolar	Palato-Alveolar	Velar	Palatal	Glottal
		p b			t d		k g		
	Affricate					tʃ dʒ			
	Fricative		f v	θ ð	s z	ʃ ʒ			h
	Lateral				l				
	Nasal	m			n		ŋ		
	Approximant	w			r			j	

### 1.1.6 Varieties of English

In linguistics, varieties relate to dialects of language. Dialects are linguistic varieties which may differ in pronunciation vocabulary and grammar from each other and from Standard English.

In other terms, dialects of language can be defined as “sub-forms of language which are in general mutually comprehensible”

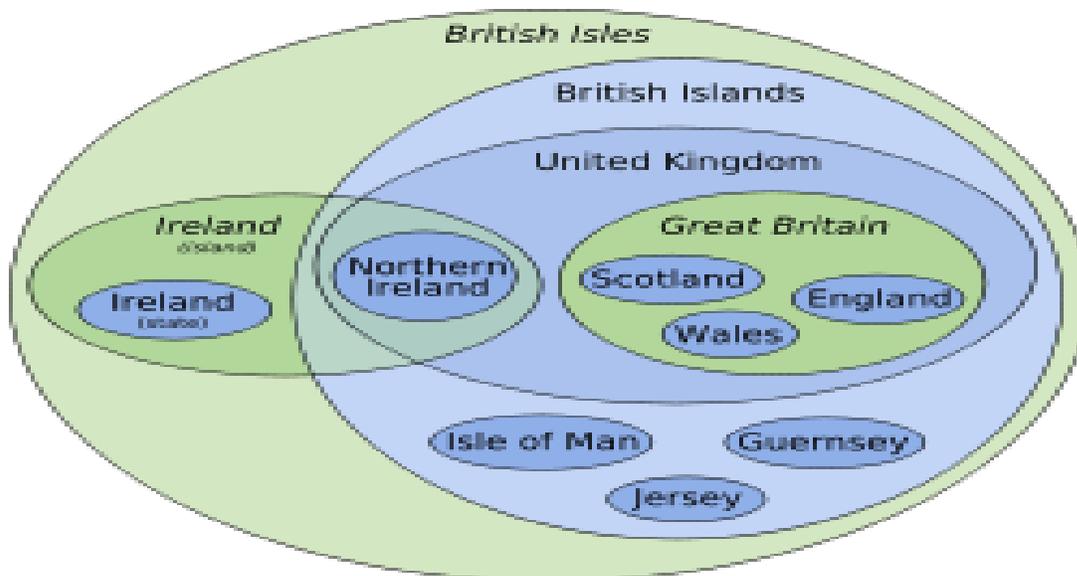

[http://en.wikipedia.org/wiki/file:British\\_Isles\\_Euler\\_diagram\\_15\\_svg](http://en.wikipedia.org/wiki/file:British_Isles_Euler_diagram_15_svg)

explains that, the native dialects of English are often divided by linguists into the three general categories of the British Isles dialects, those of North America and those of Australasia.

#### a) British Isles dialects

The British Isles are a group of Islands of the northwestern coast of continental Europe that consist of the Islands of Great Britain, Ireland and over six thousand smaller isles.

The diagram below represents the sovereign states and subdivision of the British Isles.

### a) **North American**

It can be considered a northern subcontinent of the America within northern hemisphere and almost wholly within the western hemisphere. It is bordered to the north by the Arctic Ocean, to the east by the Atlantic Ocean, to the west and south by the Pacific Ocean, and to the southeast by south America and Caribbean sea.

### b) **Australasia**

Australasia, a region of Oceania, comprises Australia, New Zealand, the island of New Guinea, and neighbouring islands in the Pacific Ocean. Charles de Brosse (1756) coined the term ( as French Australasia) He derived it from Latin for " south of Asia".

## **1.2 Background information on Komo language**

This point presents the following sub-points: The geographical and linguistic location of Komo language, its different dialects and some historical background information on the Komo people.

### **1.2.1. Geographical location**

Komo is a language spoken by Komo people, living in Maniema, northern Kivu and Tshopo provinces in D.R.C.

In Maniema, they occupy Lubutu and Punia territories.

In northern Kivu, they occupy a part of Walikale territory.

In Tshopo province, they occupy a part of Ubundu and Bafwasende territories.

### **1.2.2. Linguistic location**

According to J.P. Thomas ( 2011:3), Komo language is sub-Bantu language that over 200,00 people speak it. It belongs to Niger-Kordofanian.

According to Guthrie(1948) cited by J.P Thomas, it number is D23 i.e it occupies the third rank into the second group of D zone.

Dr Kutsch Lojenga et al(1985) list Komo language as one of the four related languages which the other three are: Bira, Bila, and Bhele.

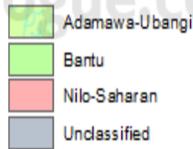

Neighbouring languages are: Bali and Lombi to the north, Enya to the northeast, Lengola to the West, Songola to the south, Kwami to the southeast, Nyanga to the east and Bhele to the northeast.

Here below is a map of northern languages in D.R.C

# NORTHERN DEMOCRATIC REPUBLIC OF THE CONGO

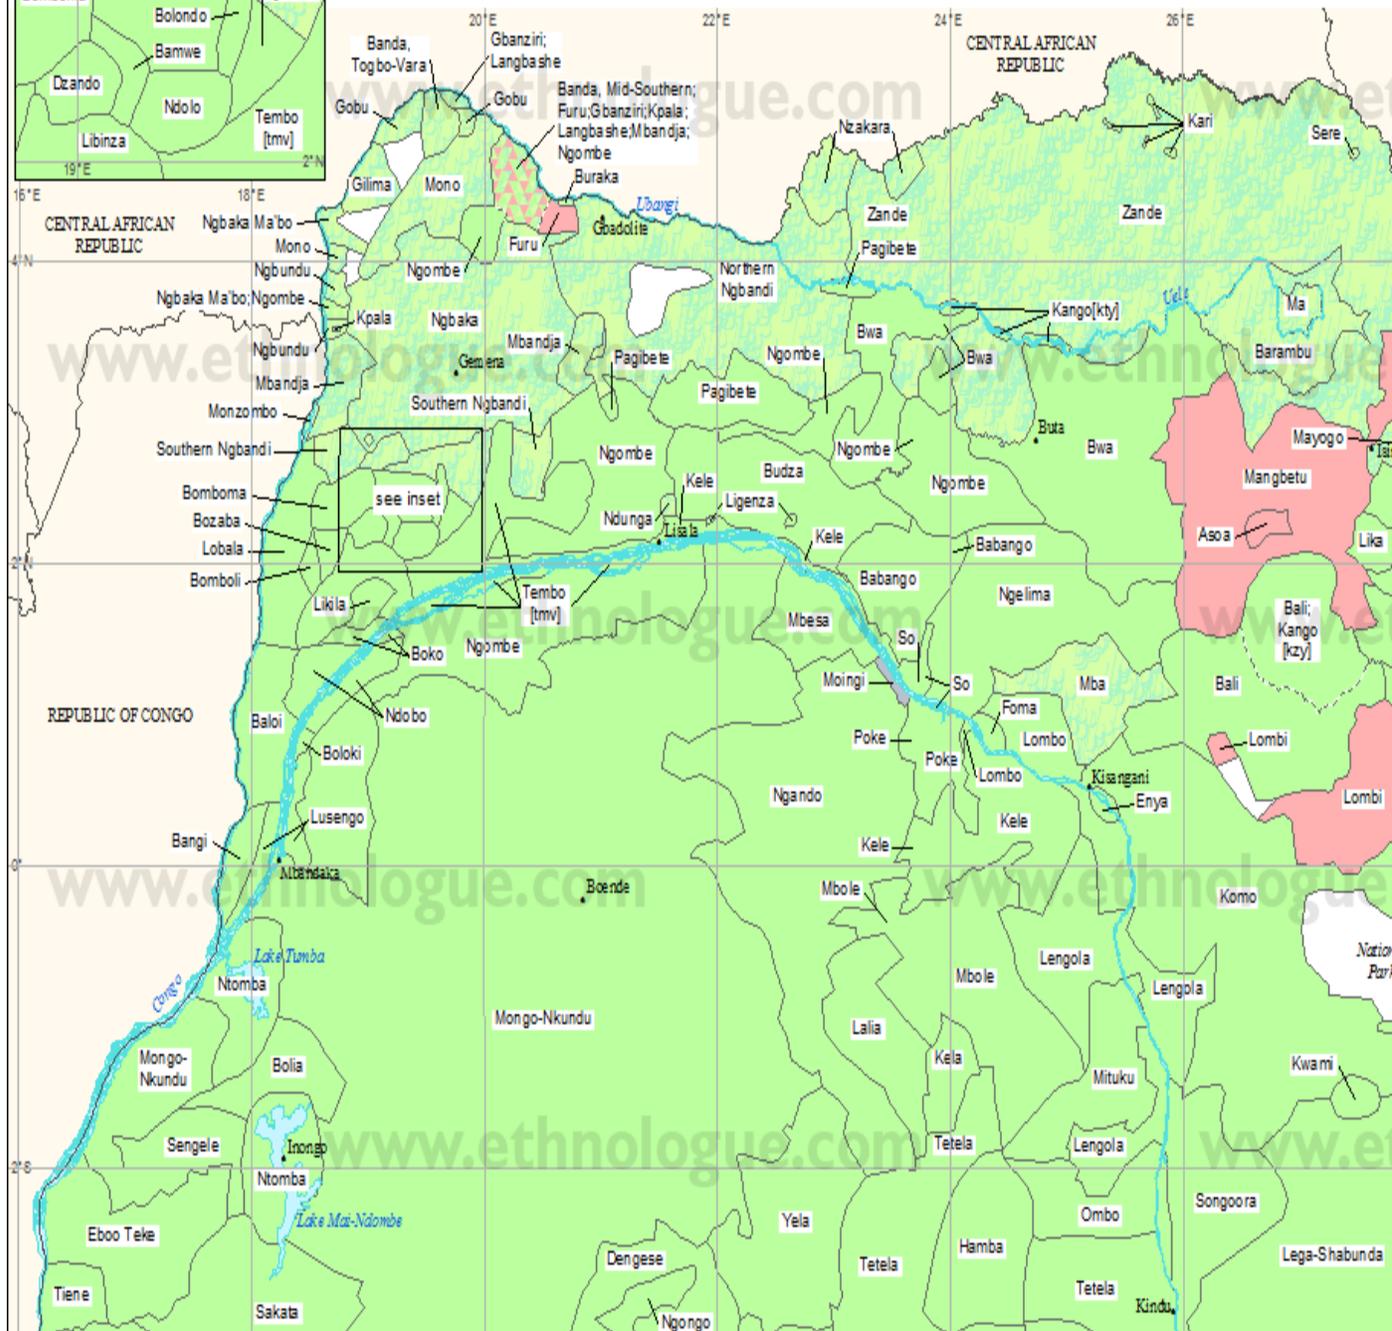

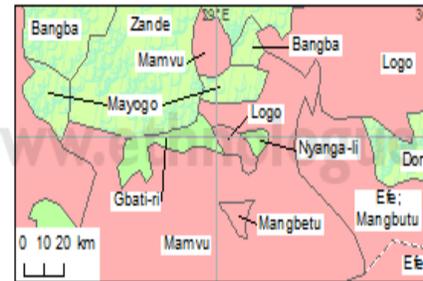

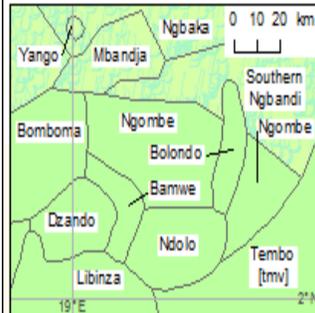

## Language Families

## Notes:

1. Boundaries in central and southern parts of the country are uncertain.
2. White areas are sparsely populated or uninhabited.
3. Dashed lines show overlap of language areas.

### **1.2.2.1. Komo Sounds organisation**

Komo language has twenty-four letters which are: a, b, ɓ, c, d, ɗ, e, ε, g, h, i, j, k, l, m, n, o, ɔ, p, s, t, u, w, y.

These 24 letters are used to form 42 individual consonantal and vocal phonemes among which there are digraph and trigraph such as mb, mb̄, nc, nd, nd̄, ng, ngb, nj, nk, nk̄, nkp, mp, ph, mph, nt, ny, ns, gb. Hence, Komo Alphabets consist of the following:

No	Sounds	Komo words	English version
01	a	abɛ,	father
02	e	eka	the bed
03	i	iso	eye
04	ε	oɓɛ	you
05	o	owanga	the light
06	ɔ	ɛlo	nose
07	u	usia	ask
08	b	bika	come
09	c	ciko	the field
10	ɓ	ɓɔngɔ	brain
11	ɗ	ɗanga	far
12	d	dida	go down
13	ph	kĩpha	at night
14	g	ko gaba	to share
15	j	ko jua	to arrive
16	k	kasa	leaf
17	m	mɛma	heart
18	n	ko noa	to drink
19	p	pɛnjɛa	the pen
20	s	sú	the fish
21	t	tate	grand-father
22	w	mowó	mother
23	y	moyo	uncircumcised voice

### **Komo consonants**

The chart below gives the Komo consonants, classed by point of articulation, manner one's and voicing.

<b>Obstruants:</b>	Bilabial	Alveolar	Palatal lateral	Velar	Labio- velar
voiceless	P	t	č	K	
voiced	B	d	ǰ	g	kp
prenasalized	mb	nd	ɲ	ŋg	gb
implosive	ɓ	ɗ	ɟ		ŋgb
fricative	ɸ	s			
<b>Resonants:</b>					
Nasal	m	n	ɲ		
Lateral		l			

### a) Komo vocalic sounds

The system of 7 vowels attested in language such as Lingala, Otetela, Mɔngɔ, Ngɔmbɛ... is also attested in Komo language.

Here are Komo vowels classed according to their feature.

	Front	mid	back
	i		u
	e		o
	ɛ		ɔ
		a	
	Unrounded	Neutral	Rounded

### **Some vowels are opposed.**

eg ɛ/e ɛtɛ = stone

ete = like

o/ɔ kotinga = to cross

ko tɔnga = to accuse

i/u kouka = to get marriage

koika = to stay

o/a iso = eye

isa = feed

ika = sit

ikia = sit for

ikidíá = sit on  
beekea = agreement  
beekeana = agree each other  
teka = send  
tekea = send for  
bibi = embers  
bíbí = near

Missa P(2009:38) stipulates that, the classification of vowels are based on four major features, which are: the tongue height, the tongue backness, the lip rounding, and the tenseness. Accordingly, Komo Vocalic Sounds are classified here below following the above mentioned criteria.

### **1. The height of the tongue**

The height of the tongue determines how much space there is between the tongue and the roof of the mouth. According to this criterion, we distinguish high, low and mid vowels.

- High vowels are produced with a relatively narrow space between the tongue and the roof of mouth. Komo vowels /i, u/ are high vowels.
- Low vowels are produced with a relatively wide space between the tongue and the roof of the mouth. Komo vowels /ε, ɔ, a / are low vowels/
- Mid vowels are the ones produced with the tongue position roughly between the high and low vowels. Komo vowels / e, o/ are mid vowels

### **2. The tongue backness**

The tongue backness determines how far the raised body of the tongue moves away from the back of the mouth. Accordingly, we distinguish front, back, and central vowels.

- Front vowels are articulated relatively forward in the mouth.
- Back vowels are articulated relatively for back in the mouth.
- Central vowel is the one whose tongue position is roughly between the front and back vowels.

### **3. The position of the lip**

Here, vowels are classified in terms of the presence or absence of lip rounding. Hence, we distinguish rounded and unrounded vowels.

- Rounded vowels are formed with a high degree of lip rounding. Komo vowels /o, ɔ, u/ are rounded.
- Unrounded vowels are formed without such degree of lip rounding. Komo vowels / i, e, ε,/.

### **4. The tenseness**

According to this criterion, there are two kinds of vowels: tense vowels which are formed with tone, and lax ones without tone.

#### **b) Tone in Komo language**

Tone in Komo is not only phonemic in that, it is used to distinguish between lexical minimal pairs. It also plays a critical role, the structure of the verbal inflectional system of language.

Dr Lojenga Kutsch (2014) states that, tone plays two functions: Lexical and grammatical ones.

#### **1. Some instances with tones related to lexical functions**

Sú = fish  
Su= smell  
ko boma = to split  
ko bóma = to swear  
asii = ancestry  
ásii = many / much  
enda = life  
énda = long  
edáka = tongue  
édaka = closing  
momba = sorcerer  
mǒmba = rat

## **2. Some instances with tones related to grammatical functions**

Netókidi ná má = I arrived yesterday

Kátóge = He did not go

Kétú wani = I wasn't here.

Kákidĩmbε = He doesn't arrive yet.

Otúmá wa = Where were you?

Komo is tone language as other Bantu languages and African ones. In Komo language, we use simple tones and compound ones.

### **a) Simple tones**

Simple tones include: *high* ' and *low* tones.

Low tone is unmarked according to **Manuel d'Orthographe Komo** (1994)

### **b) Compound tones**

Compound tones include: rising ˇ and falling ^ tones.

#### **1. Some instances with tones in monosyllabic nouns.**

H j́ = basket

H ś = fish

R mˇ = head

L su = smell

#### **2. Some instances with tones in two syllables nouns.**

HH ḱngó = neck

LF mogâ = gentleman

LH ayí = mother

HL ína = name

LL nyongɔ = matter

#### **1.2.3. Varieties of Komo language**

In spite of varieties of Komo language, Komo people do not encounter difficulty when they speak among themselves, even if they are from different sectors.

In fact, varieties of Komo language relate to sectors such as:

- Angumɔ, Kelenga, Lubuyabera (Manganga) Mangongo(mpasɔ), Ubiatoko in Tshopo province;
- ɓaSáyo, Maïkɔ, ɓaBɔ́ía, ɓaBotokani in Lubutu;
- ɓaEga, ɓaBemɔ, ɓaBia in Puni;
- Mandimba wassa in Walikale.

Hence, Komo language varies only in speaking, because of being in contact with foreign languages and neighbouring ones. But, spelling system is one because the office of Bible's translation and literacy in Komo language is only one.

#### **1.2.4. Conclusion**

This chapter has presented background information on both English and Komo languages. English was presented as a West Germanic language from the Anglo-Frisian dialects, which is now known to be the language of England, and also used in many varieties throughout the world among which British English and American one, constitute the major varieties.

Likewise, Komo language was presented as Niger-Kordofanian Bantu language, spoken in DRC by Komo people who live in Tshopo, Maniema, and northern Kivu provinces. Different dialects they differ among themselves in speaking level. But, the spelling system and understanding are alike within Komo people.

Thus, the second chapter deals with the Structures of verbs in Komo and English languages.

## **CHAPTER TWO: STRUCTURES OF VERBS IN KOMO AND IN ENGLISH LANGUAGES**

### **2.0.Introduction**

The present chapter deals with verb construction serial in both Komo and English languages. The focus is on different components such as: Particle, prefix, stem, and suffix which construct verbs. It presents firstly the English verbal construction and then, that of Komo, before drawing a short conclusion.

#### 2.0 Structure of verbs in English

According to *Oxford English Minidictionary*, structure is the way a thing is constructed or organised.

P.H.MATTHEWS (2007:427), states that, the verb is one class of lexical units whose syntactic role characteristic is as a predicate or predicator and which is characteristically that of words denoting actions or processes.

Wikipedia, the free encyclopedia explains that: A verb, from the Latin "Verbum" meaning word (part of speech) that in syntax conveys an action (e.g.: bring, read, walk, run, learn), an occurrence (e.g.: happen, become), or a state of being (e.g.: be, exist, stand).

Thus, in this sub-point, I am going to point out verbal components in the English language. In the usual description of English, the basic form, with or without the particle "to", stands for the infinitive.

e.g to go  
to eat  
to speak  
may  
must  
can

English verbs are inflected i.e. modified in form to encode tense, aspect, mood and voice. It can also agree with the person, gender, and/or number of some of its arguments such as its subject, or object.

### **2.1.1. Prefixation**

According to P.H. MATTHEWS (idem:315), prefixation is the process of adding a prefix. Whereas, a prefixal form is one either derived by prefixation or occupying the position of a prefix. Thus, in some English verbs, the particle "to" is a prefixal infinitive.

e.g to play  
to cook

### **2.1.2. Stem**

The stem refers to the part of verb that does not change in any verbal construction.

P.H.MATTHEWS (idem:381), defines stem as a form from which a word or series of words is derived by the addition of one or more affixes.

e.g. sing, play, speak, cook, buy, bring, dig, call, send...

### **2.1.3. Suffixation**

Suffixation is the process of adding a suffix.

Bauer et al (2002), define suffix as the primary morphological component used to derive new word from already existing word. And indeed, suffixes are capable of effecting four changes up on a word: phonologic, orthographic, semantic, and changes in word class.

e.g:

1. Phonologic: fuse > fusion, produce > production
2. Orthographic: commit > committal, happy > happiness
3. Semantic: husband > husbandry
4. Word class: success > successful > successfully

Henceforth, the focus will be put on suffixation which results in meaning.

#### **2.1.4. Derivation**

J.P. Thomas (2011:15) states that, derivation has two serve double duty. On the one hand it is the name of the first lexical stratum through which a word passes in undergoing morphological and phonological rules. On the other hand, it refers to the process by which one starts with a sequence of lexemes and ends up with a phonetic utterance.

According to J.Aundey (2013:5), derivation is nothing else than the linguistic operation that consists of getting other word-categories by addition of affixes to word roots or stems.

- Derivation can occur from verb-to agent noun by adding the suffix -er/-r to the stem/root of a verb after delection of particle "to" of the infinitive.

e.g:

INFINITIVE	DERIVATIONAL PROCESS	DERIVATIVE	AGENT
to read to speak	Read + -er Speak + -er	A reader A speaker	NOUN

- An actor noun can be derived from simple form of verb by adding the suffix - or

e.g

to conduct > conduct + -or > conductor  
to instruct > instruct + - or > instructor

- An agent noun can be also derived from verb by joining suffixes -ant/-ent to the stem or root.

e.g

to assist > assist + - ant > assistant  
 to protest > protest + - ant > protestant  
 to depend > depend + - ent > dependent

## **2.2. Structure of verbs in Komo language**

This sub-point, displays verbal components in Komo language. In the usual description of Komo language, the basic form, with the particle “ko”, is the infinitive.

e.g:

Infinitive	Meaning
ko bika	to come
ko kidia	to arrive
ko ga	to go
ko koga	to cry

Komo verbs are inflected i.e. modified in form to encode tense, aspect, mood and voice. It can also agree with the person, gender, and/or number of some of its arguments such as its subject, or object.

e.g:

Pattern sentences in Komo	Meaning
1. Ne ge ka kaási.	I go to school.
2. Kogembe ka kaási.	Don't go to school.
3. Neoga ka kaási	I am going to school.
4. Besu, beotanga.	We are studying.
5. Benu, botótangi.	You studied.

### **2.2.1 Prefixation**

The prefix is always in accordance with what case the structure expresses. In Komo, there are verbal prefixes, nominal prefixes, pronominal prefixes, reflexive prefixes, negative subject prefixes and subordinating prefixes.

The prefix can be either personal pronoun object or an aspect marker.

e.g

Pattern sentence	Category of prefix	meaning
1. <b>Ko</b> -ga ka kaási	Verbal prefix	To go to school.
2. <b>mo</b> -ganda ajú.	Nominal prefix	A boy arrives.
3. <b>a</b> -tójú kǐpha	Pronominal prefix	He arrived at night.
4. <b>e</b> -nusi	Reflexive prefix	He himself drink
5. <b>n'</b> -aiki	Subordinating prefix	bear.
6. <b>dá</b> -ge	Aspect maker	In staying.
7. <b>Kó</b> geku	Negative subject prefix	He has gone.
		You will not go.

### **2.2.2 Stem**

In Komo language, there are verb-stems composed of one syllable and two syllables.

e.g

Stem	Component	meaning
ga	CV	go
ja	CV	return

ma	CV	stand up
ea	VV	eat
ika	VCV	sit
kidia	CVCVV	arrive
emba	VCCV	sing

### 2.2.3 Suffixation

Suffixes affecting changes of tenses of Komo verbs.

e.g

Stem	suffix	Tense	meaning
ik	-i	Simple Present	sit
kidfi	-ma	Simple Past	arrive
ea	-nde/-ande	Simple Future	eat

### 2.2.4 Derivation

This sub-point, focuses on the causative, applicative, habitual and reciprocal affixes.

#### 1. Causative

Causative case in verbal derivation is made with infix **-is**.

e.g

Stem	causative case	Meaning
mak	makisa	Make him/her throw
ik	ikisa	Make him/her sit
nus	nusisa	Give him/her drink
gog	gogisa	Make him/her pound
bin	binisa	Make him/her dance

#### 2. Applicative

The applicative case is made with infixed front vowels such as: e/ε /i roughly in order of frequency.

e.g

Stem	Applicative case	Meaning
------	------------------	---------

δετ	δετεια	Hit for him/her
bik	bikia	Come for him/her
κωβ	κωβεια	Keep silence for him/her
bom	bomea	Insult someone for him/her

### 3. Habitual

Habitual case is made with suffix **-ga**

e.g.

Verb	Habitual case	Meaning
bika	bikaga	Used to come
ga	gaga	Used to go
ύβα	ύβaga	Used to steal
μεμα	μεmaga	Used to beg

### 4. Reciprocal

The infix **-an** is reciprocal marker.

e.g.

Stem	Reciprocal case	Meaning
Bóm	Bóm ana	Insult each other
kond	kond ana	love each other
dom	dom ana	fuck each other

### 2.2.5 Conclusion

This chapter has described the serial verb constructions on both English and Komo languages. This analysis of verbs structure in Komo, will be contrasted with that of English to single out the resemblances and differences existing between them. So far,

- Resemblances are in components which exist in both languages such as: particle and affixes.
- While, differences are when they are inflected for expressing a given case.

## CHAPTER THREE: SIMPLE TENSES OF VERBS IN KOMO AND ENGLISH LANGUAGES

### 3.0 Introduction

This chapter presents the simple tenses of verbs in Komo and English languages. The main focus of this chapter is the presentation and the use of simple tenses such as, the simple present tense, the simple past tense and simple future tense. This study will first be done in English and then, in Komo language. After all, a contrastive analysis on the above tenses will be carried between English and Komo languages.

### 3.1. Simple tenses of verbs in English

The concept of tense in English is a method that we use to refer to time- past, present and future.

wikipedia.org/wiki/Grammatical tense stipulates that, in grammar, **tense** is a category that expresses time reference.

It refers to the absolute location of an event or action in time, either the present or the past. It is marked by an inflection of the verb:

e.g.

David walks to school (present tense)

David walked to school (past tense)

#### 3.1.1 Simple Present Tense

The *Simple Present* is frequently used in English. It is also called *Present Simple*

➤ Formation: Verb all persons.

Verb+ s/es 3<sup>rd</sup> person singular.

e.g.

I go

You go

He goes

We go

You go  
They go

### **3.1.2 Use of Simple Present Tense in English**

<http://www.grammar-monster.com/glossary/tense.htm>, states that, Simple Present Tense is used to:

#### **1. express repeated as habitual actions (*every day, always, often, sometimes, never*)**

My friend often **draws** nice posters.

I never **drink** orange juice.

We usually **go** to the Baltic Sea in summer.

#### **2. things in general/ universal truth**

The sun **rises** in the east.

Cats **drink** milk.

#### **3. Fixed arrangements, scheduled events (e.g. timetable)**

The plane **flies** to London every Monday.

We **have** English on Tuesdays and Fridays.

#### **4. sequence of actions in the present (*first – then, after that*)**

First I **get** up, then I **have** breakfast.

After school I **switch** on my computer, then I **check** my emails and after that I **play** my favourite game.

#### **5. instructions**

**Open** your books at page 34.

**Don't shout** at me!

6. with special verbs – which are normally not used with the *Present Progressive* (These verbs express states, possessions, feelings etc.) *be, believe, belong, hate, hear, like, love, mean, prefer, remain, realize, see, seem, smell, think, understand, want, wish*

I **understand** English.

He **doesn't like** fish.

She **believes** in life after death.

Do you **prefer** tea or coffee?

### **3.1.3 Simple Past Tense**

We use the Past Simple tense to talk about a completed action or a situation - an event - in the past. The event can be **short** or **long**.

The addition of adverbs of time shows that the action was fully completed sometimes in the past.

Here are some **short** events with the Past Simple:

The car **exploded** at 9.30am yesterday.

She **went** to the door.

We **did** not **hear** the telephone.

**Did** you **see** that car?

### **3.1.4. Simple Future Tense**

<http://www.englishpage.com/verbpage/simplefutureforms.html>, explains that, Simple Future has two different forms in English: "will" and "be going to." Although the two forms can sometimes be used interchangeably, they often express two very different meanings. These different meanings might seem too abstract at first, but with time and practice, the differences will become clear. Both "will" and "be going to" refer to a specific time in the future.

## **FORM: will**

[will / + verb]

Examples:

- You will help him later.
- Will you help him later?
- You will not help him later.

## FORM Be Going To

[am/is/are + going to + verb]

Examples:

- You are going to meet Jane in afternoon.
- Are you going to meet Jane in afternoon?
- You are not going to meet Jane in afternoon.

### [Complete List of Simple Future Forms](#)

#### USE 1 "Will" to Express a Voluntary **Action**

"Will" often suggests that a speaker will do something voluntarily. A voluntary action is one the speaker offers to do for someone else. Often, we use "will" to respond to someone else's complaint or request for help. We also use "will" when we request that someone help us or volunteer to do something for us. Similarly, we use "will not" or "won't" when we refuse to voluntarily do something.

Examples:

- I **will send** you the information when I get it.
- I **will translate** the email, so Mr. Smith can read it.

- **Will** you **help** me move this heavy table?
- **Will** you **make** dinner?
- I **will not do** your homework for you.
- I **won't do** all the housework myself!
- A: I'm really hungry.  
B: I'**ll make** some sandwiches.
- A: I'm so tired. I'm about to fall asleep.  
B: I'**ll get** you some coffee.
- A: The phone is ringing.  
B: I'**ll get** it.

## USE 2 "Will" to Express a Promise

"Will" is usually used in promises.

Examples:

- I **will call** you when I arrive.
- If I am elected President of the United States, I **will make** sure everyone has access to inexpensive health insurance.
- I promise I **will not tell** him about the surprise party.
- Don't worry, I'**ll be** careful.
- I **won't tell** anyone your secret.

## USE 3 "Be going to" to Express a Plan

"Be going to" expresses that something is a plan. It expresses the idea that a person intends to do something in the future. It does not matter whether the plan is realistic or not.

Examples:

- He **is going to spend** his vacation in Hawaii.
- She **is not going to spend** her vacation in Hawaii.
- A: When **are** we **going to meet** each other tonight?  
B: We **are going to meet** at 6 PM.
- I'**m going to be** an actor when I grow up.

- Michelle **is going to begin** medical school next year.
- They **are going to drive** all the way to Alaska.
- Who **are you going to invite** to the party?
- A: Who **is going to make** John's birthday cake?  
B: Sue **is going to make** John's birthday cake.

#### **USE 4 "Will" or "Be Going to" to Express a Prediction**

Both "will" and "be going to" can express the idea of a general prediction about the future. Predictions are guesses about what might happen in the future. In the following examples, there is no difference in meaning.

Examples:

- The year 2016 **will be** a very interesting year.
- The year 2016 **is going to be** a very interesting year.
- John Smith **will be** the next President.
- John Smith **is going to be** the next President.

### **3.2. Simple Tense of verbs in Komo**

Simple Tense of verbs in Komo refers to the absolute location of an event or an action in time. It includes simple present tense, simple past tense and simple future tense.

#### **3.2.1. Simple Present Tense**

Form:

Simple Present Tense is made with the following Pronominal Subject Prefix (P.S.P.):

ne/nε + V in 1<sup>st</sup> person singular (1PS)

o/ɔ + V in 2P.S

a + V 3P.S

be/bε + V 1P.P

bo/bo + V 2P.P

bá + V 3P.P

e.g.

Verb

translation

Ne ge	I go
O ge	You go
A ge	He/She goes
Be ge	We go
Bo ge	You go
Bá ge	They go

### **3.2.2. Use of Simple Present Tense in Komo**

Simple Present Tense is used to express:

**1. repeated actions (*every day, always, often, sometimes, never*)**

Pattern sentences

Translation

Nekondi mponga na nyama.

I often like rice to meat.

Kénumbe mɔnɔ makana.

I never **drink beer**.

**Beogaga ka ciko**

**We usually go to field.**

**3. Things in general/ general or universal truth**

**Mání nn'aosia na koba**

The sun can't over in

heaven.

**4. fixed arrangements, scheduled events (e.g. timetable)**

**Bakiísito báobhɛdanaga esa á ekuma gena bhui. Christians work every Thursday.**

Beoga ka kanisa esa á yenga bhui.  
Sunday.

We go to church every

**5. sequence of actions in the present (*first – then, after that*)**

**Bii neigi, ne ge.**

**As I eat, I go.**

**Nei phó mpɔ neoga.**

**I eat first then I go.**

## 6. instructions

Koḏa iso ako.

Open your eye.

Kəyɔŋgɛmbɛ akpɛ.

Don't speak loudly

Juana!

Get out!

### 4.2.3 Simple Past Tense

We use the Past Simple tense in Komo, to talk about an action, a situation or an event - in the past. The event should be taken place for **short period of time**.

#### Forms:

**Simple Past Tense in Komo is formed by two different ways when verb is either conjugated in affirmative form or in interrogative one:**

#### 1. P.S.P.+tó + V

e.g.

pattern sentence in Komo

**Netóge na ciko**

**Atókidí nǎma**

yesterday.

Betóigi nǎma nkɛkɛ na nyama.

porridge to meat.

Bátóigi?

translation

**I went to fild.**

He arrived

We ate yesterday

Did they eat?

#### 2. P.S.P. + V +-ma

e.g.

Bobikima mbusa phɛɛ.

You came very late.

Bekidíma kambimba

We arrived in

morning.

Okidíma esa sina?

Which day did you

arrived?

Nekidíma esa á Yenga.

I arrived on Sunday.

**Notice:**

When the verb is conjugated in negative form the structure is going to be as follow:

a) N.S.P. + tó + V or P.S.P. + N.S.P + tó + V

The Negative Subject Prefixes usually have a high tone.

e.g. Kétóge ka kaási.	I did not go to school.
Ḃákátóbiki wani.	They did not come here.
Kátóiki.	He did not stay.
Ḃékétóip̄hi.	We did not last.
Ḃókógi ka kema.	You did not do anything.

Structure: **N.S.P. + V + ma or P.S.P+ N.S.P+ V+ ma**

e.g. Kékɔɔnima nāma.	I did not see you yesterday.
Ḃókóbɛɖanigima b̄ā nāma. yesterday.	You did not work before yesterday.
Kégema kó.	I did not go there.
Kágema p̄hɔɔ kó.	He did not go there too.

### **3.2.4. Simple Future Tense**

#### **Form:**

**S.F is formed in Komo by adding the suffix -nde.**

**V+-nde**

**It can be translated in English either by to be going to or by will followed by verb.**

**We use S.F. in Komo:**

- **to express a voluntary action;**

**e.g.**

**Pattern sentences in Komo**

**Translation**

Negeande ekuma ndɔ.  
work.

I am going to do that

Nebikande ogogo.  
evening.

I am going to come in

Bogande máma.

You will go tomorrow.

to express a promise;

e.g. Nɛkɔɔphanande ka kidiani.  
arrival.

I will call you in my

Aoba n'omokondi, nekosombeande nyama. If you love me I will buy to you meat.

➤ to express a plan;

e.g.  
Nephekande endu ángbó.  
house.

I will build a big

Negoagande kesambae.  
Swahili.

I will learn

➤ to express a prediction;

e.g. Mbua ndɔ, aɔkande.  
rain.

That rain is going to

Abɛ akidiande kesande.  
arrive today.

My father is going to

Obande mɔkɔta.  
authority.

You will be an

### **3.3. Contrastive analysis of simple tenses of verbs in English and in Komo language**

#### **3.3.1. Similarities**

S.T.V.K	S.T.V.E
<ul style="list-style-type: none"><li>S.P.T, S.Past.T and S.F.T. exist in K.V</li></ul>	<ul style="list-style-type: none"><li>S.P.T, S.P.T and S.F.T. exist in E.V.</li></ul>

<ul style="list-style-type: none"> <li>• S.P.T.V.K. expresses: <ul style="list-style-type: none"> <li>- repeated as habitual action;</li> <li>- things in general/ universal truth;</li> <li>- fixed arrangements;</li> <li>- sequence of action in present;</li> <li>- instruction;</li> </ul> </li> <li>• Simple Past expresses a completed action</li> <li>• Simple Future expresses: <ul style="list-style-type: none"> <li>- Voluntary action;</li> <li>- Plan;</li> <li>- Prediction;</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>• S.P.T.V.E. expresses: <ul style="list-style-type: none"> <li>- repeated as habitual action</li> <li>- things in general/ universal truth;</li> <li>- fixed arrangements;</li> <li>- sequence of action in present;</li> <li>- instruction;</li> </ul> </li> <li>• Simple Past expresses a completed action</li> <li>• Simple Future expresses: <ul style="list-style-type: none"> <li>- Voluntary action;</li> <li>- Plan;</li> <li>- Prediction;</li> </ul> </li> </ul>
--	---

### 3.3.2. Differences

S.T.V.K.	S.T.V.E.
<ul style="list-style-type: none"> <li>• S.P.T.V.K is made with P.S.P.+V Ne/o/a/ be/bo/bá+V e.g : Ayɔngi He speaks</li> <li>• S. Past T.V.K. is formed either by P.S.P+tó+V or P.S.P.+V+-ma. e.g. Ne tó yɔngi I spoke Neyɔngima</li> <li>• The suffix <b>-nde</b> is Simple Future marker. e.g: Negande I shall go</li> </ul>	<ul style="list-style-type: none"> <li>• S.P.T.V.E. is made with P.P.S +V I/You/He/She/We/You/They+V e.g. I cook</li> <li>• In 3S verb changes in S.P.T.V.E e.g. He cooks</li> <li>• S.Past T.of regular V. in English is marked by an inflection. e.g. He cooked</li> <li>• Will and to be going to are S.F.M e.g. He will cook He is going to cook.</li> </ul>

### **3.3.3 Conclusion**

This chapter has presented the simple tenses of verbs in Komo and English languages. This contrastive analysis in both Komo and English languages enables to find what could be expressed by using Simple Present Tense, Simple Past Tense and Simple Future Tense in Komo and English languages.

Concerning similarities in Simple Tenses of both languages, they occur in case from which Simple Present Tense, Simple Past Tense and Simple Future Tense are used. Whereas, dissimilarities exist in forms and formation of Simple Present Tense, Simple Past Tense and Simple Future Tense of verbs in English and Komo languages. Then the following chapter will present Aspects of Verbs in Komo and English languages.

## CHAPTER FOUR: ASPECTS OF VERBS IN KOMO AND ENGLISH LANGUAGES

### 4.0. Introduction

This chapter presents the different aspects of verbs in Komo and English languages in showing how they are formed in the past, present and future tenses.

#### 4.1. Aspects of verbs in English

Comrie (1976:3) cited by P.H. Østen Dohl states that, Aspects are different ways of viewing the internal temporal constituency of situation.

P.H. Østen Dohl (1985:25) stipulates that, tenses are typically deictic categories in that, they relate time points to the moment of speech; whereas, Aspects on the other hand are non-deictic categories because they are concerned with the internal temporal constituency of situation.

<http://www.smg.surrey.ac.uk/features/morphosemantic/aspect/> doi 10.15126/SMG.18/1.08 explains that, **Aspect** is a grammatical category that expresses how an action, event or state, denoted by a verb, relates to the flow of time.

A basic aspectual distinction is that between perfective and imperfective aspects.

Perfective aspect is used in referring to an event conceived as ***bounded*** and unitary, without reference to any flow of time during ("I helped him"). Imperfective aspect is used for situations conceived as existing continuously or repetitively as time flows ("I was helping him"; "I used to help people"). Further distinctions can be made, for

example, to distinguish states and on going actions (continuous and progressive aspects) from repetitive actions (habitual aspect).

#### 4.1.1. Simple Aspect

**The simple aspect (or indefinite aspect) is the verb form used to express a fact. It does not make it clear whether the action is a complete action or a habitual action. A verb in the simple aspect relies on a combination of context and tense to clarify whether the action is complete or on going.**

**For example:**

- **He ate cake.**

**The tense tell us this is a complete action, but it is unclear whether this was a habitual action or not.**

#### 4.1.2 Perfect Aspect

**According to <http://grammar.about.com/od/pq/g/prespertense.htm>, perfect Aspect is** A verb construction that describes events occurring in the past but linked to a later time, usually the present.

In English, the perfect aspect is formed with *has*, *have* or *had* + the past participle of the main verb.

##### **4.1.2.1 The Present Perfect Simple Aspect**

The Present Perfect Simple Aspect puts emphasis on the result.

It expresses:

- an action that is still going on;
- an action that stopped recently;
- finished action that has an influence on the present;
- action that has taken place once, never or several times before the moment of speaking.

e.g.

He has spoken

We have worked.

#### **4.1.2.2. Past Perfect Simple Aspect**

Past Perfect Simple Aspect expresses:

- action taking place before a certain time in the past;
- sometimes interchangeable with past perfect progressive;
- putting emphasis only on the fact (not duration)

e.g:

He had spoken

We had cooked

They had worked.

#### **4.1.2.3. The Future Simple Perfect Aspect**

The *Future Simple perfect* is formed with “**will**” followed by “**have**” and the past participle of the [main verb](#). It is generally used to express an action that will be completed prior to or by some specified future time.

**e.g**

I will have worked

#### **4.1.3. Progressive Aspect**

<http://grammar.about.com/od/pq/g/prespogtense.htm> states that, **Progressive Aspect** is a [verb phrase](#) made with a form of *be* plus *-ing* that indicates an action or condition continuing in the [present](#), [past](#), or [future](#).

A verb in the progressive aspect (also known as the *continuous* form) usually describes something that takes place during a limited time period.

It expresses also the *dynamic* quality of actions that are in progress

Geoffrey Leech et al. note that the English progressive "has developed a rather complex meaning, or set of meanings, by comparison with progressive constructions in other languages" (*Change in Contemporary English: A Grammatical Study*, 2012).

e.g.

Tom is reading a book.

You were working.

I will be working.

I had been working.

#### 4.1.3.1. Perfect Progressive Aspect

The perfect progressive aspect is not considered as an aspect in itself; it is rather a combination of the perfect and progressive aspects.

#### 4.1.3.2. Present Perfect Simple Progressive Aspect

It is expressed with the auxiliaries "**have**", "**has**" and "**been**" (the third form of **be**) and the (present participle) **-ing** form of the verb.

**It puts emphasis on the course or duration (not result).**

- **It expresses action that recently stopped or is still going on.**
- **It focuses finished action that influenced the present.**

e.g.

**He has been speaking.**

**We have been studying.**

#### **4.1.3.3 Past Perfect Simple Progressive Aspect**

Past.Perfect.S.Pr.A expresses that the action had been in progress for some time at a specific point in time. This point in time may be defined by a time expression (***at 5 o'clock***) or a clause (***when she gets home***).

Structure **S+had+been+ing**

e.g.

From 1985 to 2005, George had been living in Scotland.

I had been playing football.

#### **4.1.3.4. Future Perfect Simple Progressive Aspect**

F.Perfect.S.Pr.A. expresses that the action will have been in progress in specific point of time.

e.g.

He will have been working.

They will have been studying hardly.

After wedding ceremony, they will have been sleeping both together.

#### 4.2. Aspect of Verbs in Komo

##### 4.2.1 Simple Aspect of verb in Komo

**It expresses either a fact or a complete action, but it is unclear whether this was a habitual action or not.**

e.g.

translation

**Neimá nyama.**

**I ate meat.**

**Atódungí iii.**

**He took the photo.**

**Nege na ciko.**

**I go to field.**

**Negande máma.**

**I will go tomorrow.**

#### 4.2.2.1 Perfect Aspect of verbs in Komo

**It emphasises of complete action.**

#### 4.2.2.2 Present Perfect Simple Aspect in Komo.

The Present Perfect Simple Aspect puts emphasis on the resultat.

It expresses:

- an action that is still going on;
- an action that stopped recently;
- finished action that has an influence on the present;
- action that has taken place once, never or several times before the moment of speaking.

**Form: P.Perfect.S.A in Komo is made with A.M+P.S.P+V.**

**1S** dé+ne+V

2S dó+V

3S dá+V

1P dé+ be+V

2P dó+ bo+V

3P dá+ ba+V

e.g.

translation

*Dénege kó*

*I have gone there.*

<i>Dóge kó</i>	<i>You have gone there.</i>
<i>Dáge kó</i>	<i>He has gone there.</i>
<i>Débetú kó</i>	We have been there.
<i>Dóbotú kó</i>	You have been there.
<i>Dábatú kó</i>	They have been there.

#### **4.2.2.3 Past Perfect Simple Aspect in Komo**

**Past.Perfect.S.A.** expresses an action taking place before a certain time in the past.

It puts emphasis only on the fact (not duration).

Form:

1.S *dé+ne+V+-mɔŋɔ*

2.S *dó+V+mɔŋɔ*

3.S *dá+ V+-mɔŋɔ*

1.P *dé+be+ V+-mɔŋɔ*

2.P *dó+ bo+ V+mɔŋɔ*

3.P *dá+ba+V+mɔŋɔ*

e.g.

translation

*Dénege mɔŋɔ na Isiro.*

*I had gone to Isiro*

*Dábakidimɔŋɔ kɪpha.*

They had arrived at night.

*Dábamotekimɔŋɔ danga.*

They had sent me far.

*Dábajimɔŋɔ kala.*  
longer.

They had returned so

#### **4.2.2.4 Future Perfect Simple Aspect in Komo.**

F.Perfect.S.A.K, expresses an action that will be finished at a certain time in the future.

Form: P.S.P +V followed by -eka.

e.g.

translation

Nebɛðanagaeka

I will have worked

Neomanaeka.

I will be married.

Ojuaeka.

You will have arrived

Ayɔŋgaɛka.

He will have spoken.

Ɓeyɔŋgaeka

We will have spoken.

Boyɔŋgaeka

You will have spoken

Báyɔŋgaeka

They will have spoken.

#### 4.2.3 Progressive Aspect of Verbs in Komo

Pr.A.Vb.K expresses also the *dynamic* quality of actions that are in progress.

##### **4.2.3.1. Present Simple progressive Aspect of verbs in Komo**

P.S.Pr.A. K, expresses:

- an action taking place in the moment of speaking;
- Action taking place only for a limited period of time;
- Action arranged for the future.

Form:

1S: ne-o+V

2S: o-o +V

3S: a-o+V

1P: be-o+V

2P: bo-o+V

3P: bá-o+V

e.g.

translation

Neoeaga

I am eating

Ooeaga

You are eating

Aoeaga

He/She/It is eating

Beoeaga

We are eating

Booeaga

You are eating

Báoeaga

They are eating

Notice: Another form of making P.P.A.V in Komo is:

P.S.P.+ -ká+V

e.g.

translation

Nekábika

I am coming.

Okáeaga

You are eating.

Bekátamba

We are travelling.

Bekábedanaga

We are working.

Bákáyonga

They are speaking.

Akáda

He is sleeping

#### **4.2.3.2. Past Simple Progressive Aspect in Komo**

The Past. S.Pr.A. of verbs in Komo, expresses:

- Action going on at a certain time in the past;
- Action taking place at the same time;
- Action in the past that is interrupted by another one.
- That the action was in progress for some time at a specific point in time.

Form:

1S: ne+-tú+-o+V

2S: o+-tú+-o+V

3S: a+-tú+-o+V

1P: ðe+-tú+-o+V

2P: ðo+-tú+-o+V

3P: ðe+-tú+-o+V

e.g.

Netúoemba.

Otúoemba.

Atúoemba.  
singing.

Betúoemba.

Botúoemba.

Bátúoemba.  
singing.

translation

I was singing.

You were singing.

He/She was

We were singing.

You were singing

They were

Notice: The aspect marker "o" can also be replaced by "ká" for expressing the same thing.

e.g.

Bátúkáemba.

They were singing

Bátúkábina

They were dancing.

Netúkáaḍa

I was sleeping.

#### **4.2.3.3. Future Simple Progressive Aspect of verbs in Komo.**

F.S.Pr.A Vb.K expresses that the action will have been in progress in specific point of time.

The suffix **-nde** in a morpheme with which the simple future in Komo is formed, whereas morpheme "o" or **ká** relates to aspect marker.

Form 1:

1S: ne+-bá+nde+-o/ká+V

2S: o+ -bá+nde+-o/ká+V

3S: a+-bá+nde+-o/ká+V

1P: be +-bá+nde+-o/ká+V

2P: bo+-bá+nde+-o/ká+V

3P: bá+-bá+nde+-o/ká+V

e.g.

translation

Nebandeobedánaga.

I shall be working.

Obandeobedánaga.

You will be working.

Abandeobedánaga.

He/She will be working.

Bebandeobedánaga.

We shall be working.

Bobandeobedánaga.

You will be working.

Bábandeobedánaga.

They will be working.

#### **4.2.4 Perfect Progressive Aspect of Verb in Komo.**

The Perfect Progressive Aspect of verbs in Komo, expresses that the action had, has or will have been in progress for some time at a specific point in time.

#### **4.2.4.1. Present Perfect Simple Progressive Aspect.**

This one:

- Putting emphasis on the course or duration;
- It expresses an action that recently stopped or is still going on;
- It expresses also the finished action that influenced the present.

Form:

1S dé+ne+-o+V

2S dó+-o+V

3S dá+-o+V

1P dé+be-o+V

2P dó+bo+-o+V

3P dá+ba+-o+V

e.g.

*Déneotanga.*  
studying.

*Dóotanga.*

*Dáotanga.*  
studying.

*Débeotanga.*

*Dóbootanga.*  
studying.

*Dábáotanga*  
studying.

translation

I have been

*You have been studying.*

*He/She has been*

We have been studying.

You have been

They have been

#### **4.2.4.2. Past Perfect Simple Progressive Aspect**

Past Perfect Simple Progressive Aspect is used:

To express an action taking place before a certain time in the past.

Form:

1S dé+ne+-tú+-o+V

2S  $d\acute{o}+-t\acute{u}+-o+V$   
3S  $d\acute{a}+-t\acute{u}+-o+V$   
1P  $d\acute{e}+\acute{b}e_+-t\acute{u}+-o+V$   
2P  $d\acute{o}+\acute{b}o_+-t\acute{u}+-o+V$   
3P  $d\acute{a}+\acute{b}a_+-t\acute{u}+-o+V$

e.g.

*D\acute{e}net\acute{u}ob\epsilon\delta anaga.*

*D\acute{o}t\acute{u}ob\epsilon\delta anaga.*

*D\acute{a}t\acute{u}ob\epsilon\delta anaga.*

*D\acute{e}\acute{b}et\acute{u}ob\epsilon\delta anaga.*

*D\acute{o}\acute{b}ot\acute{u}ob\epsilon\delta anaga.*

*D\acute{a}\acute{b}at\acute{u}ob\epsilon\delta anaga.*

translation

I had been working.

You had been working.

He had been working.

We had been working.

You had been working.

They had been working.

#### 4.2.4.3. Future Perfect Simple Progressive Aspect of Verbs in Komo

F.Perfect.S.Pr.A. of verbs in Komo expresses that the action will have been in progress in specific point of time.

It is formed by using all P.S.P+  $\acute{b}a+eka+o+V$

**Form :**

1S  $ne+ \acute{b}a+eka+o+V$

2S  $o+ \acute{b}a+eka+o+V$

3S  $a+ \acute{b}a+eka+o+V$

1P  $\acute{b}e+ \acute{b}a+eka+o+V$

2P  $\acute{b}o+ \acute{b}a+eka+o+V$

3P  $\acute{b}\acute{a}+ \acute{b}a+eka+o+V$

e.g.

*translation*

*N\acute{e}\acute{b}aekaoega nyama esa bui.  
every day.*

I will have been eating meat

Obaekaoeaga nyama esa bui.  
meat every day.

You will have been eating

Abaekaoeaga nyama esa bui.  
meat every day.

He will have been eating

Bebaekaoeaga nyama esa bui.  
meat every day.

We will have been eating

Bobaekaoeaga nyama esa bui.  
meat every day.

You will have been eating

Bábaekaoeaga nyama esa bui.  
meat every day.

They will have been eating

### **4.3 Contrastive analysis of Aspects of verbs in English and Komo languages**

#### **1. Similarities**

Aspects of verbs in Komo language	Aspects of verbs in English language
Here are aspects existing in Komo verbs: S.A, Perfect. A, P.Perfect.S.A., Past Perfect.S.A, F.Perfect.S.A.,Pr. A, <b>P.S.Pr.A, Past.S.Pr.A.),</b> <b>F.S.Pr.A, Perfect.S.Pr.A,</b> <b>P.Perfect.S.Pr.A, Past</b> <b>Perfect.S.Pr.A,</b> <b>F.Perfect.S.Pr.A)</b>	Here are aspects existing in English verbs: S.A, Perfect .A, P.Perfect.S.A., Past Perfect.S.A, F.Perfect.S.A., Pr. A, <b>P.S.Pr.A, Past.S.Pr.A,</b> <b>F.S.Pr.A, Perfect .S.Pr.A), P.</b> <b>Perfect.S.Pr.A, Past</b> <b>Perfect.S.Pr.A, F.Perfect.S.Pr.A</b>

#### **Differences**

Forms of A.Vb.K.L	Forms A.Vb. E.L
1.S.A is formed either with P.S.P+v+-má or P.S.P.+tó+v	1.P.Perfect.S.A is formed with <i>has, have</i> + P.P

<p>e.g. Atókidí He arrived Akídima</p> <p>2. P. Perfect. S. A. is formed with: <b>A.M+P.S.P+V</b></p> <p>e.g. dénege I have gone</p> <p>3. Past Perfect. S. A. is formed A.M+ <b>P.S.P+V+-mɔnɔ</b></p> <p>e.g. dénege <b>mɔnɔ I had gone</b></p> <p>4. F. Perfect. S. A. is formed with : P.S.P +V followed by -eka. e.g. Negaeka I will have gone</p> <p>5. <b>P.S.Pr.A is formed with</b> P.S.P.+ o/ká+V</p> <p>e.g. Neobina I am dancing Nekábina</p> <p><b>6. Past. S. Pr. A is formed with</b> <b>P.S.P+tú+o/ká+v</b></p> <p>e.g. détuóbina I was dancing</p> <p><b>7. F.S.Pr.A is formed with</b> <b>P.S.P+ bá+nde+-o/ká+V</b></p> <p>e.g. Nebandeobina I will be dancing</p> <p><b>8. P. Perfect. S. Pr. A</b> 1S dé+ne+-o+V 2S dó+-o+V 3S dá+-o+V 1P dé+be-o+V 2P dó+bo+-o+V 3P dá+ba+-o+V</p> <p>e.g. dábaoemba They have been singing</p> <p><b>9. Past. Perfect. S. Pr. A. is formed</b> <b>with</b> A.M+be/bo/ba/ tú/+o/ka+V</p> <p>e.g. dábatúoemba They had been singing</p> <p><b>10. F. Perfect. S. Pr. A is formed</b> <b>with</b> P.S.P+ ba+eka+o/ká+V</p> <p>e.g. Nebaekaoemba I will have been singing</p>	<p>e.g. I have gone</p> <p>2. Past Perfect. S. A. is formed with had + P.P e.g. <b>I had gone</b></p> <p>3. F. Perfect. S. A. is formed with will+ have +P.P e.g I will have gone</p> <p>4. <b>P.S.Pr.A is formed with</b> <b>is/are+v+-ing</b> e.g. <b>She is cooking</b></p> <p><b>5. Past. S. Pr. A is formed</b> <b>with was/were+v+-ng</b> e.g <b>She was sleeping</b></p> <p><b>6. F.S.Pr.A will+be +v-ing</b> e.g. I will be dancing</p> <p><b>7. P. Perfect. S. Pr. A</b> <b>have+been+v+-ing</b> e.g. They have been singing</p> <p><b>8. Past. Perfect. S. Pr. A.</b> <b>had+been+v+-ing</b> e.g <b>They had been singing</b></p> <p><b>9. F. Perfect. S. Pr. A</b> <b>will+have+been+v+-ing</b> e.g. I will have been singing</p>
--	--

In displaying aspect of verbs in Komo in one hand, and those of English in other side, the analysis shows us clearly the

richness of both Komo and English languages in order that different aspects mentioned above exist in both languages. And they are used in the same circumstances.

But, they differ from one to another according to their forms, and constructions.

#### **4.2.4 Conclusion**

The knowledge of different aspects of verbs and their proper use in sentence is important to develop a good communicative skill. The contrastive analysis of aspect of verbs in Komo and English languages in this chapter, helps us to know how aspect of both languages are displayed and what they express.

This chapter has presented some:

- Similarities in the existence of simple aspects and their use in both Komo and English languages;
- Differences according to their different structures and components which construct simple aspects in both Komo and English languages.

#### **General Conclusion**

Language is used in human society, for purpose of communication i.e, to hear and to respond.

This thesis is entitled Simple Tenses and Aspects of verbs in English and Komo language : A contrastive Analysis. This once, wasn't chosen at random because it has conveyed a general content in order to describe, analyze and contrast Simple Tenses and Aspect of verbs in English and Komo languages. The main intention was to present grammatical study not only for having handbook in both language, but also for helping translation Advisors who often confuse tenses and Aspects of verbs in Komo language.

This work is developed in four chapters. In chapter one, I present background information on Komo and English languages. In chapter two, I present structures of verbs in Komo and English languages. In chapter three, I present Simple Tenses of Verbs in Komo and English languages. In chapter four, I present aspects of verbs in Komo and English languages.

After collecting data and analyzing them, It has been found that, verbs in Komo and English languages attest S.T and Aspects. By constracting them, similarities have been found i.e the following tenses: S.P.T, S.Past.T and S.F.T and aspects: S.A, Perfect.A, P.Perfect.S.A, Past Perfect.S.A, F.Perfect.S.A, Pr.A, P.S.Pr.A, Past S.Pr.A, F.S.Pr.A, Perfect.S.Pr.A, P.Perfect.S.Pr.A, Past Perfect.S.Pr.A, F.Perfect.S.Pr.A exist in both Komo and English languages. The above tenses and aspects in both languages could be used in the different contexts alike in both languages. But, differences exist in forms and structures. Then Komo is Bantu language spoken in DRC by over 200,000 people.

Whereas, English is Germanic language used in many varieties throughout the world by one billion people who speak it.

Hence, This thesis has as pedagogical implication not only a tool of teaching Komo grammar but also for teaching English grammar.

It is also reference handbook for those researchers who are interested in the linguistic domain.

However, as any work done by human being, this thesis on Simple Tenses and Aspects of Verbes in English and Komo remains open to suggestions that could be suggested by others.
